

# RG800 SERIES

## Gravity Conveyor Rollers

If you're looking for a simple everyday conveyor roller, our **RG800 SERIES** could have the product for you.

These rollers consist of a mild steel tube finished with BZP as standard, mild steel axle and oiled ball bearings encased in a metal housing.

No need for motors or belts - The oiled ball bearings build up momentum with a push for a fast, free-spinning application.

0-60°C

### APPLICATIONS

Warehouses    Some Food Sectors  
Airports    Factories  
Internal Conveyor Systems

Tube Dia (mm) & thickness		Axle Options (mm)		Tube Finish Options	Load Capacity f/udl
		●	⬠
